Allowable Subject Matter

Claims 1-23 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable for the reason that a ridge waveguide semiconductor laser diode comprising a cladding layer, formed into a ridge structure, with a remaining underlying part having a certain thickness D, wherein the device emits light having a maximum power level substantially at its center and an edge where the power level of the beam is a fraction of $1/e^2$ of the maximum power level, the beam edge having a vertical width W measured perpendicular to the surface of the active region, wherein D is greater than or equal to $.5 \times W$, was not found to be taught in prior art.

Claims 2-23 are allowable as they depend from the allowable claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
